EXPERIENCE

Frontend Developer

Sep 2018 - Present

Vicara

Bangalore, India

Software Development Intern

Feb 2017 - Present

AppSecure India

Bangalore, India

Developer & Designer

Oct 2015 - Jan 2015

Computer Society of India

VIT Vellore Chapter

Graphic Design Intern

BeepWeep Media

VIT, Vellore

- Vicara is an early stage hardware startup based in Bengaluru.
- I am assigned to handle their Web Ecosystem (Store, Website, Web Apps, Desktop Apps).
- During my time here, I have been developing the Kai Control Center cross-platform application using Electron & Angular 7.
- Startup based in Bengaluru focused on providing web/mobile/network security.
- I interned here as a telecommuter building complete web interfaces for their apps like *Phish.Watch*, *Rakshak.io*, *Vulneye* etc.
- The most recent project (*Rakshak.io*) was presented at RISE Conference, 2018.
- I worked mainly designing UX/UI and developing the frontend from scratch using Angular (JS to 2/4/5/6).
- The startup was recently listed under Forbes 30 under 30, Asia.
- A multi-disciplinary University Chapter with the sole aim of honing technology and pushing it forward.
- I have helped developed internal applications for events, internal projects etc.
- Most of all, I was the key designer for the branding of events, apps etc.
- Hosted as a coordinator for one of their biggest events - Yuvana.
- BeepWeep is an entertainment and news publishing website for audience along with advertising company for product sellers and MNCs.
- It got Featured by AIESEC in Delhi IIT and VIT Vellore.

EDUCATION

Vellore Institute of Technology, Vellore, India

B. Tech. in Information Technology / CGPA: 8.45

2015 - 2019

Activities and Societies: Computer Society of India, TAG Club

Bharati Vidyapeeth, Pune, India

PCM Stream, 11th & 12th Grade / 12th: 86.4% CBSE

2013 - 2015

GG International School, Pune, India

5th - 10th Grade / 10th: 10 CGPA CBSE

2008 - 2013

PROFESSIONAL SKILLS

Industry Knowledge

- Web Development
- UI / UX Design
- Graphic Design
- Backend Development
- Desktop App Dev
- iOS Development
- OOP
- Software Development
- Algorithms

Languages

- C++
- C
- Java
- Python
- Ruby
- Swift
- JavaScript
- TypeScript
- HTML

Technologies

- Angular
- ReactJS
- Electron
- Bootstrap
- MySQL
- NodeJS
- MongoDB
- RxJS
- CMS

Tools

- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Apache Cordova
- PhoneGap
- Android Studio
- Xcode
- Zeplin
- Webpack

Notable Skills

Angular
C & C++
Java
JavaScript
Web Development
Desktop App Dev

PROJECTS

Kai Control Center

Angular 7, Electron
<https://vicara.co>

A cross-platform desktop application for configuring gestures for various desktop applications for the Kai (primary product at Vicara). The application involves syncing with a server, authentication, and writing/reading files from the filesystem on an extensive basis.

Rakshak Beta

Angular 6, Angular CLI, Webpack
<https://rakshak.io>

This project was presented at the RISE Conference, Hong Kong, 2018. Rakshak provides advanced automated monitoring for web applications. The app's UI / UX was designed and developed solely by me as an intern at AppSecure using Angular 6 and arguable the best practices available then.

PhishWatch

Angular 2, Webpack
<https://phish.watch>

PhishWatch is a powerful phishing framework that makes it easy to test an organization's exposure to phishing. The app's UI / UX was designed and developed solely by me as an intern at AppSecure.

Vulneye (New)

Angular 5, Angular CLI

An enterprise application for companies that will serve as their private hub for managing their bug bounty programs/vulnerability reporting/report generation with full view & control over the process through a convenient dashboard. The app's UI / UX was designed and developed solely by me as an intern at AppSecure.

The Liberation League Website

ReactJS, Gatsby, Netlify CMS
<https://theliberationleague.org>

An NGO based in Pune. A blog to host information about all happenings, tutorials etc. The site was built using ReactJS, supported by a Gatsby starter and linked to the Netlify CMS for a backend-less content management.

Drill (Prototype)

MEAN Stack

A community where users share a timeline of events which helped them learn a topic of their choice. The prototype was built in an hackathon by my team, which is now Devlar (devlar.in).

Pentest Cloud

MEAN Stack, Bootstrap

A website hosting a pool of useful, effective and some unique penetration tools. The early frontend code was written using pure HTML, CSS & Bootstrap but was later ported into an AngularJS application. The app's entire UI / UX was design by me before developing the frontend. (<https://pentest-cloud.com>)

Vulneye (Old)

Angular 2, Webpack

Vulneye works for you and your projects by continuously finding vulnerabilities and issues in your dependencies. Find security issues in your dependencies using Vulneye and it'll help you fix them. The app's entire UI / UX was first designed and then developed by me.

Creative Space

MEAN without Angular

Creative space is a platform for any form of creative artist or people in general to put together their portfolio and build up an audience at the same time. Every person needs and has their own creative space, the joy of creating and finishing something you started is an immense one, and it must be shared with the world.

I have worked on many more projects that can be found on my [Website \(yashanand.work\)](https://yashanand.work).
